

GENERAL INFORMATION

A brand new recording house located in Dolni Bojanovice, a small town in the middle of the famous Czech wine region, close to Slovak – Austrian borders (about 3 hours' drive from Prague, 2 hours' drive from Vienna /Austria/ and just one hour from Brno or Bratislava /Slovakia/).

It consists from two independent recording halls (master and slave scoring stages), two control rooms (with the possibility of simultaneous use), plus rooms for percussion and vocals.

Considering its dry acoustic, CMP's Medium Recording Hall presents an ideal solution for all projects utilizing groups from chamber to a medium-sized symphony orchestra | choir.
